| • Data Structures & Algorithms | • Data Communications & Networking | System (DBMS) | • Web Development |
| • Operating Systems | • Database Management | • OOPS Concept | • Machine Learning |

PROJECTS

Liveness Detection Model – Thrivella

Python, TensorFlow, OpenCV, Flask [↗](#)

Mar 2025

- Built a liveness detection system for an E-Identity and verification app at Thrivella to detect spoofing attacks such as print, replay, and 3D mask.
- Integrated the trained model into a Flask backend API for real-time facial authentication.

Driving School Management System

Technology Stack: HTML, CSS, JavaScript, PHP, MySQL [↗](#)

Jul 2024

- Built a web-based platform for managing student enrollment, instructor scheduling, and course tracking.

Quiz App – React Flask API

React, Flask, SQLite, Axios [↗](#)

Dec 2024

- Developed a quiz application with React frontend and Flask API backend, allowing users to register, log in, and take quizzes.
- Created dynamic quiz pages, fetching quiz questions from a Flask API and displaying them with multiple-choice options.
- Implemented a scoring system with real-time result calculations upon quiz submission.
- Integrated user authentication, managing user sessions with JWT for secure login.

INTERNSHIP

Telecel Telecommunications Company [↗](#)

Sep 2024 – Nov 2024

Telecommunications Network Intern

Kumasi, Ghana

- Assisted in the installation and maintenance of fiber broadband connections for residential and commercial clients.
- Worked hands-on in server rooms, assisting with the setup, configuration, and troubleshooting of network infrastructure.
- Collaborated with technical teams to ensure the efficient operation of telecommunication networks and fiber optic systems.
- Contributed to network testing and quality assurance to enhance overall service reliability and performance.

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript, React

Developer Tools: VS Code, CodeBlocks, Eclipse, Jupyter Notebook, Google Colab

Technologies/Frameworks: GitHub, ReactJS, Flask, Tensorflow, OpenCV, JWT, SQLite
